Engineering News-Record

A Consolidation of Engineering News and Engineering Record

A JOURNAL OF CIVIL ENGINEERING AND CONSTRUCTION

ISSUED WEEKLY

VOLUME LXXX

January 1 to June 30, 1918

McGRAW-HILL COMPANY, INC.
10TH AVENUE AT 36TH STREET
NEW YORK

ENGINEERING NEWS-RECORD

INDEX TO VOLUME LXXX

January 1 to June 30, 1918

A

Abrams, D. A., on revolutionary result of proportioning water in concrete tests e847, *873
Abutment shortest wing wall not most economical (M. J. Shamray) l 1243 (See also 785)

Accident Prevention
Elimination of grade crossings can wait..e889
Hazardous work on Manhattan Elevated Ry. resulted in few accidents 360
Illuminated white posts make safety street islands conspicuous *662
Safety engineering a benefit in Springfield (Mass) 523
Safety provision on Cal. mountain highway curves *665
Airplanes delivered by trucks and trailers.n*1251
Accounting, uniform methods for road construction (E. N. Hines) 718
Activated sludge, definition of 205
—Fertilizing values of sludge and manure (G. G. Nasmith, G. P. McKay) May Journ. of Ind. and Eng. Chemistry) 1193
Advisory Council on Labor has work of greatest importance to industry 275
Allen, J. R., on the engineering student problem 1009
Alvord, J. W., on the engineering data required for a housing project 1141
Alvord, O., on the water-works system of Chicago *268
Amer. Assn. of Engineers sends ballot to 250 societies n631
American business methods in foreign trade, careless e890
American cities compared statistically 874
American engineering progress e9
Amer. International Shipbuilding Corp., Phila. *12
American ordnance base in France *23

A. R. E. A.
Convention e390
Convention accepts recommendations of 14 committees 606, 624
Convention, Chicago abstr632
Yards and terminals committee on motor trucking e1026, 1038

A. S. C. E.
Censures local associations for stand on excess profit tax n976
Construction requirements for membership in e691
New constitution (J. V. Davies) l 375 (M. T. Endicott) l 375, (A. C. Humphreys) l 424, (C. W. Hunt) l 375, (N. P. Lewis) l 424, (Hunter McDonald), l 375, (F. C. Noble) l 375, (J. A. Ockerson) l 375, (G. H. Pegram (l 424, (J. W. Smith) .l 424
Portland (Ore.) sends out questionnaire..n1019
Proposed constitution e57, n139, (E. W. Sawyer) l 527
Proposed constitutional amendment e539
Resolutions of Committee on Development. e1209, 1210
San Francisco discusses status of profession. 601
To vote on revised construction (Hunter McDonald, Clemens Henschel) l 325
Angles to the right. Useful method (H. H. Ormsby) 626

Appliances, Instruments, Tools
Air hoist removes spalls from crusher bowl h*971
Convenient bag for field men n*1179
Device to replace cars derailed at frogs and switches n*1068
Drawings, new folding wall rack for n*843
Grading aided by use of special level rods. *1085
Grinder for contractors 338
Heavy machine tools needed at once e103
Hollow steel drill punched off center to prevent clogging h*971
Hydraulic device to handle sand cheaply at So. Amer. mine (B. G. Torpen) h*1244
Inverted transit fixed to tunnel roof n261
Jaws of grab bucket closed by steam power n*979
New flood lighting projector *338
New machines facilitie track work *506
Reinforced handles for rivet cutters h1244
Rock drill rigged to tamp slag fill (E. J. Becker) h*1197
Single templet for many curves *278
Sketch board from clip file h*879
Spacer for reinforcement *56
Swinging boom made of concrete tower chute (S. S. Elkins) h*1197
Switchstand has simple lock mechanism.n*1253
Target for long sight on plumb job 338
Variations in transit needles (S. P. Baird) l 49 (L. J. Johnson, W. Newbrough) l 530 (A. M. Strong) l 185
Vertical grained wooden block flooring.100, 149
Vice, portable pipe *338

Aqueducts
—Hetch Hetchy progress 72
—Ten miles of concrete for Winnipeg (K. P. Kumpe) *111
Appreciation for "News-Record" and some suggestions l 1103
Archbishop of York, C. G. Lang, on social reconstruction after the war 566
Arches, unsymmetrical, how proportion (J. P. Schwada) *415
Architects should put utility before aesthetics (C. H. Blackall) 1238
Area of a circle, method of computing (B. B. Gordon) l 185
Armored tower used in replacing old bridge in Guatemala *303
Armstrong, W. R., on U. P. R. R. concrete snow sheds *80
Arnold, L. G., on spillway constructed by two derricks and concrete tower h*187
Asphalt, stone-filled, sheet, suffers from lack of attention to details (C. Richardson) 109
Assessments, simple basis for on paving and grading (G. H. Ruhling) *1049
Austin partly rebuilt dam still defective. *353
Austin water supply gift (A. J. Gilker) .l 325
Reply (Julian Montgomery) l 327
Aviation, airplane production and Gutzon Borglum e937

B

Babbitting with mixture of asbestos and cylinder oil (L. A. M. Bushnell) h136
Babson, R. W., on sufficient labor available in U. S. n935
Backfillers used on Camp Custer trenches in soft ground h879
Bag for valuation field men n*1179
Baker, C. W., on organizing American research work on national scale 1079
Baker, Charles W., on prospect for water-power development 60
Balsley, F. M., on special culverts for roads in rolling country *1138
Baltimore city departments put down attempt to unionize labor 965
Baltimore studies improved waste collection and disposal (W. E. Lee) 522
Bandar-log or bee e540
Bantrell, W. A., on sewage foaming in Rochester plant 672
Barends, H. A., on reinforced handles for rivet cutters h1244
Barges, concrete, wanted for N. Y. canal..n1154
Barker, B. D., on use of motor trucks in making Cook Co. (Ill.) hard roads 210
Bass, Frederic, on tests of joints for cast iron pipes *991
Bathon, Wingrove, on an advisory council to coördinate after war readjustments. 1031, e1069, 1092
—Developments in war and industrial situation n331
—Preparing for after the war industrial problems 1031
—Reconstruction plans intrusted to Council of Natl. Defense n1198
—Work of Gt. Britain on after-war problems 1177
Baxter, F. A., on sliding forms for tunnel walls and roof h*137
Baylis, J. R., on use of baffles to cut down chemicals in Jackson filtration plant. 364
Bibliography of Municipal Utility Regulation (D. L. Stevens) 1192
Bedford, A. C., on transportation needs 777
Becker, E. J., on rock drill rigged up to tamp slag fill h*1197
Belgium to be rebuilt after war (J. M. Goodell) 247
Bell, C. M., on pushing sales of water and power by commercial means 369
Bell, N. J., on sawtooth roof construction for light and air *667
Bennett, C. J., on Connecticut war roads. n554
—Cost of repairs and maintenance of Connecticut roads 272
—Improvised portable power saw h*573
Bent, Stedman, on moving steam shovel by motor truck h*787
Bethlehem retaining wall has watertight expansion joint *354
Biles, G. H., on open roads in Penna. for army motor convoy *408
Bilger, H. E., on belting and rolling methods for concrete roads in Ill. 461
Bingham, C. A., on city manager problems. n672
Bitumen, type of, outweighed by condition of road surface (J. Adler) a76
Bixby, Gen. W. H., on ice gorges in Mississippi River 526
Blackall, C. H., on utility before aesthetics in building e1211, 1238
Blake, E. M., on Boston dry dock automatic concrete plant *200
Bliss, C. B., on concrete, outdoor, circular swimming pool *997
Blueprints center-bound on gummed strip..h*428
Board for Mechanical Education, short-sighted order e153
Boats lost to traffic by ice in Mississippi valley rivers 526
Bonus for labor speeds up work in Flint (Mich.) (C. E. Ridley) 701

Books Reviewed
American Lubricants (L. B. Lockhart) 1191
Chemical and Bacteriological Examination of London Waters (Dr. A. C. Houston) .1190
Chemists' Pocket Manual (R. K. Mead) 782
Disasters and American Red Cross Disaster Relief 783
Duinverming and Het Manadeip (Dr. J. Versluys) 373
Elements of Railroad Engineering (W. G. Raymond) 1190
Fighting Engineers (F. A. Collins) 1192
Food Conservation Through Utilization of Garbage Waste (G. R. Bascom and Dr. B. A. Beach) 969
Garbage Utilization (U. S. Food Administration) 969
Handbook on Hydraulics (H. W. King) 967
Handbook on Piping (C. L. Svensen) 968
Health and Sanitation in Russia (G. C. Whipple, C. E. A. Winslow) 373
Het watergevend Vermogen van een Groep Putten (Dr. J. Versluys) 373
Horizontal cylindrical tank gaging (J. B. Morrow) 131
Hydraulic and Excavation Tables (U. S. Reclamation Service 781
Hydraulic Jump and Backwater Curves (S. M. Woodward) 781
Hydraulic Mining Debris in the Sierra Nevada (G. K. Gilbert) 129
Kutter's tables of velocity of water in open channels (A. A. Stiles) 132
Mechanics of the Household (E. S. Keene) .1192
Meter Rates for Water-Works (Allen Hazen) 781
Miami Valley and the 1913 Flood (A. E. Morgan) 373
Michigan Technic (Uni. of Mich.) 131
Modern Civic Art, City Made Beautiful (C. M. Robinson) 968
Municipal Experiment. Hall of Records power plant (R. P. Bolton) 130
Natural Style of Landscape Gardening (F. A. Waugh) 371
Oil Storage Tanks and Reservoirs (C. P. Bowie) 1190
Outdoor Theaters (F. A. Waugh) 371
Practical Structural Design (Ernest McCullough) 128
Principles of Ocean Transportation (E. R. Johnson) 572
Proposed Classification of Engineering Literature (Frick and Raymond) 780
—Letter on (K. C. Walker) .1 780
Reply (C. W. Hunt) .1 780
Railroad Structures and Estimates (J. W. Orrock) 373
Recent Movement for State Budget Reform (F. W. Powell) 1192
Regulation of Railways (S. O. Dunn) 1191
Report on Dam and Water Power Development at Austin (D. W. Mead) 371
Restoration of Trade-Union Conditions (Sidney Webb) 782
Rivers as Sources of Water-Supply (A. C. Houston) 130
Rural Planning and Development (Thomas Adams) 372
Short History of Science (W. T. Sedgwick) 572
State Sanitation (G. C. Whipple) 130
Steam Power Plant Engineering (G. F. Gebhardt) 129
Storm Rainfall of Eastern U. S. (Miami Conservancy Engineers) 781
(See also 1 628)
Story of U. S. Reclamation Service (G. W. James) 571
Technic of Surveying Instruments and Methods (W. L. Webb) 372
Timber Framing (H. D. Dewell) 128
Trade Unionism in the United States (R. F. Haxie) 132
Treatise on Roads and Pavements (I. O. Baker) 969
Water Supply Engineering (A. P. Folwell) 129
What is Fair (W. G. Raymond) 571
Wood and Other Organic Structural Materials (C. H. Snow) 131
Works Manager Today (Sidney Webb) 371

Borglum, Gutzon, on airplane production. . . e937
Boston catch basin inspectors scored n32
Boston investigation of Miles' acid process for recovery of grease and fertilizers from sewage e293, 310
Boston street railways under state management n1063, e1071, n1154
Boucher, E., on vertical end posts on bridges .l*91
Boulder (Colo.) places two engineers on city commission 114
Brady, T. A., on modern methods of assembling and recording movements of plants 711
Branch, L. V., on screened gravel core and pipe drains for earth dam *366
Bread, H. E., on highway problems. . . . abst*610
—Permanent help from lessons learned in war road work 211
—Testing the Deval cylinder h477
Brewer, A. P., on table for estimating costs of water main extension 910

Bridges
Arch bridge concreted in Des Moines *771
Armored tower in Guatemala torrent to replace bridge *303
Bascule bridge at Deering, two sections different total weight 33
Best angle for abutment wing walls (E. P. Kelley) .l *785
(See also *169.
Bridge raising order for Pittsburgh suspended n581
C. and A. R. R. difficult grade separation. . *651
C. & N. W. Ry. uses pre-cast concrete slabs to incase I-beams *511

*, illustrated; l, letters; e, editorials; h, hints; n, news notes; a, abstracts.

Circular girder support for swing bridge turntable (Edward Godfrey) 1 1010
(See also *775)
Claverack failure caused by subsidence or scour (E. J. Doyle) 1 1057
(See also *619, 786 i 830)
Claverack failure due to foundation and scour (E. E. Brandon) 1 830
(See also 619)
Collapse of concrete spans at Hudson (E. J. Doyle) *619
Concrete arch railway bridge cost less than steel *342
Construction marked an epoch in 1917 season e9
Draglines make bridge across Rio Grande.n163
Expansion at piers provided by segmental roller bearings for concrete girders.....*1189
Federal control must take precedence of state control e1211
Flange bracing of girders needs discussion (H. R. Thayer) e184
Fort Leavenworth old toll bridge taken by U. S. Government 650
Freeing toll bridges.....e1159, n1200
Hudson River bridge and tunnel commission organized n1202
Illinois Central bascule bridge to be operated by hand *296
Kansas City viaduct built on curved lines..*753
Kansas River double-deck railway bridge (F. W. Epps) *393, *466
Lift bridge improvised by engineers at the front h*1196
Live load stresses in railroad bridges (H. R. White) *1137
Low-level concrete bridges for Philippine stream fords 89
Luten bridge patents ruled against in lower courts n144
Minneapolis opens bridge built by city..n*1247
Modern drawbridges of great weight and span length 860
New Allegheny River bridge *848
New bridge concreted from track of the old h*970
New interstate bridge needed at Vincennes. 451
N. J. swing bridge turntable failure.....*775
(See also 1 1010)
N. Y. state law limits Castleton bridge to single span *1033
Philadelphia bridge abutment has pier footings and curved wings (J. Jones) *1006
Portland (Ore.) designs abutments and retaining walls *1132
Portland (Ore.) seven bridges to eliminate grade crossing *1097
Provide painters' scaffolds in constructing bridges n803
Railroad bridge live load and impact studied in India 420
Railway bridge over upper Niagara River.n950
Removable spans required over dredged ditches (G. F. Burch) abst345
St. Louis viaduct, concrete, simple details (C. W. Martin) *1080
Sciotoville bridge e58
Sciotoville bridge problems and method of erecting (C. B. Pyle) *62
Sciotoville truss erection and jacking operations (C. B. Pyle) *219
Self healing coating on N. Y. Central bridges n159
Slab design responsible for collapse (Edward Godfrey) 1 786
(See also *619)
Some work of engineer troops in France..*285
Steel forms furnished by Illinois Central for Chicago concrete work n*536
Turning back abutment wing walls saves material (C. K. Mohler) *169
Vertical end posts preferred (E. Boucher) .1 *91
Viaduct and bridge improve rail entrance to Kansas City (F. W. Epps) *393
Viaduct spans carried by hinged polygonal steel arch *607
Wooden blocks on bridge floors need rigid support h579
Wooden flooring on highway bridges obsolete (J. A. L. Waddell) 817
Wooden trestle replaced piecemeal by concrete structure *869
Yielding gates to stop automobiles at open draws *1008

British labor problem significant to engineers e391
Brown, R. T., on making handy sketch board from a clip file h*879
—A single templet for many curves.....*278
Browning, I. R., on expansion joint installed to insure proper placing *811
Buck, C. M., on Topeka Ry. shops system of concrete roadways and trucks to distribute supplies to Topeka Ry. shops..*1038
Bucket, drag-line, loads within its length h*677
Bucket excavator for heavy trenching work n*842
Budget procedure reforms needed ..e1113, 1151
Buffalo plan to standardize clerical salaries 346

Buildings
American railway yard and terminal building in France (R. E. Tomlin, Jr.) 348
Asphalt blocks for Navy Dept. warehouse floors 868
Buckled steel post repaired in place (J. T. Sullivan) h*186
Cement stucco on metal lath, rapid construction with *604
Chicago Art Institute shows designs of workmen's dwellings n856
Code to govern city building e746
Cold storage concrete building for apples..*1175
Columns set back of walls give large window area in concrete industrial buildings *809
Concrete office building an example for the future e540

Page

Construction division U. S. Government made good e937
Contractor builds warehouse out of bridge forms h*379
Emergency buildings should be better protected from fire 1032, 1054
Engineering data required for a housing project (J. W. Alvord) 1141
Fireproof base hospitals, why not.....e196
Floor load requirements of city building law (R. Fleming) 1227
Freight station and warehouse of Central Mfg. District, Chicago.....*405
Government housing plans fast taking shape n94, 276
Holyoke paper mill rebuilt for efficient operation (J. Meltzer) *442
Hospital concrete warehouses rushed to completion (E. H. Mosher) *312
Mill buildings and laminated floors (C. G. Paul) 1073
Office building and Illinois Central railway station *181
Office work simplified in emergency building program 959
Plate mill in operation in six months at Homestead *20
Portable houses for overseas *40
Port terminals for war transporation being built *462
Portable units form labor camp buildings.*126
St Paul union railway station building program *1184
San Francisco building with glass front..*995
Sec. McAdoo on building operations during the war n795
Small army warehouses built with speed and economy *1045
Some work of engineer troops in France..*285
Three Government office buildings in Washington *350
Timber arch truss roofing for Salt Lake City garage (H. W. Sheley) *595
Town to house 3000 ship builders *227
Two house designs, concrete throughout..*947
Warehouse in Buffalo has upper floors overhanging railway siding *411
Warehouse at Camp Johnson up in three hours (C. H. Hollingsworth) h*279
Building wrecked with dynamite, brick saved (Harry Gough) h136
Bunnell, S. H., on Russia's need of municipal improvements 1095
Burdick, C. B., on Porto Rico cantonment 614
Bureau of Standards e981, 1017
—Wire gages, comparative Circular, 67...n770
Burgess, G. H., on land appraisers' work for Delaware and Hudson Company 503
Bushnell, L. A. M., on quick repairs to steam shovel engine h*137
Business, readjustment of e151
Business and the war e745, 751

C

Cable inclines carry boats over Illinois River levee *355
Cadillac city government by engineer-manager does not eliminate politics (T. V. Stevens) 398
Cady, H. R., on use of electricity in Philadelphia pumping stations *915
California irrigating by pumping n767
—Potash lands opened n920
—Puts idle land to work n809, 817
Calking machine, pneumatic, for wooden ship hulls n*1024
Camp health and sanitation e2
Canada pools power to supply munition plants n834
Canadian Pacific Coast builds new shipyards (R. M. Fripp) *361
Canadian Society becomes Institution e340

Canals
Barge canal operations to be centered in New York n880
Canals ready to handle freight traffic.....n488
Can N. Y. barge canal carry all coal needed by State e104
Cape Cod canal a one way route.....n205
Decision needed on waterway control.....e242
First barge goes through western branch.n101
Has Government control of barge canal come too late e797, 833
Irrigation canals and reservoirs leak (A. P. Davis) *663
Is railroad opposition to barge canal system really dead e890
Leak in lock repaired by compressed air tunnel *699
N. Y. State refuses to exploit its canal system e846
Panama canal force still large 68
Panama to have laboratory to study paints for use in tropics n230
Protecting Panama lock valves against electrolysis (R. H. Whitehead) *1219
Sluicing method for moving earth (W. G. Fargo) h*328
Storage service raised by feed canal to Orland reservoir *1186
Sweep boat and drag line dredge used on job h*92
Trent canal between lakes Ontario and Simcoe opened n1108
War aids Scotch canal plan n760
Cantilevered coping for Rock Island retaining wall *622
Capital vs. labor. Bandar-log on vee e540
Careless Yankee business methods e890
Carnegie Steel Co.'s Homestead plate mill *20
Carroll, C. H., on fire pump efficiency.....1235
Cartwright, H. H., on land computations for railway valuation.....1232
Cars, dump, may relieve present shortage.e1212

Page

Carver, T. H., on efficiency of hydraulic ram in Seattle.....*1000
Carver, T. H., on time saved by using pipe-testing apparatus in Seattle *917
Catalogues, uniform sizes for (Emile Low) 1 966
(S. B. King).....1 1194
(D. H. Nichols) 1 1195
(E. A. Rossiter) 1 830
Catchings, Waddill, on new industrial problems 752
Catechism on yard design and operation.. 561
Cattle guards and gates for highways (H. L. Way) *863
Caution not pessimism should rule in new work 54

Cement
Price of export cement high n420
Prices fixed for Government needs.....n978
Shipped in bulk in open cars and unloaded by grab bucket.....h*832
Steel pipe as cement shed at Dead River dam h*186
Central Manufacturing District freight station and warehouse in Chicago *405
Centralized control of war is coming e891
Chamber of Commerce, U. S. Chicago meeting ...e745, e746, e747, 751, 777, 789
Channing, J. P. n*478
Chapin, R. D., on importance of highways 778
Charter for Detroit short and simple....1047
Charter of St. Paul brings city to operate on cash basis n1051
Charts used on sewer construction at Camp Lewis to show progress h*1148
Cherrington, F. W., on heaving of creosoted wood block pavements.....*1183
C. and A. R. R. difficult grade separation.*651
Chicago building industry and war.....n178
C. B. & Q. R. R. has three new machines to facilitate track work *506
Chicago canal might use old railroad swing bridges n39
Chicago and E. Ill. R. R. concrete arch bridge cost less than steel *342
Chicago engineers brought together by military work 624
—Improves water distribution system (R. S. Spalding) *921
—Motor vehicles increase ten-fold in eight years *311
C. & N. W. Ry. uses precast bridge slabs to incase I-beams *511
Chicago park officials discuss snow removal with Western Society of Engineering... 617
—Proposes double deck street n29
—Volunteer street cleaning bureau quits..n349
Chicago, R. I. and Pacific Ry. has office cars on track elevation 818
Chicago takes traffic census in loop *254
—Water waste report *268
Chloramine investigated in Denver water supply n1141
Chlorine for waterworks embargo lifted n685, n688, e691, 738, 743
Circle area, to compute (B. B. Gordon)....1185
City commission plan e593
City managers, their third.....1 1103
City planning with engineering vision (R. E. Lawistowsky) 666
City planning and industrial housing (Bu. of Labor Review).....1193
City war programs needed e6
Civil service personnel to be graded and standardized in N. J. 810
Classification of engineering literature (G. W. Lee) 1 966
Clay production increased 47 per cent. in 1917 .....n876
Cleveland Engineering Society 625
—To increase efficiency in city work by frequent meetings n701
Cleveland public hall has deep foundation drainage sewer *363
Clip file made into handy sketch board (R. T. Brown) h*879

Coal and other Fuels
Burning coal to consume garbage.....e390
Coal will be conserved for war industries.n588
Consumers protected against poor grades of coal n978
Cylindrical coaling stations on St. Louis & San Francisco Ry. *270
Government's most drastic order.....e151
Gravity track system at anthracite coal breakers (F. N. Rupprecht) *1003
Outlook for next winter e845
Pacific Coast oil supply soon to be exhausted n1068
—Priorities fixed by War Industries Board.n795
Small coaling stations, design of..... 102
Stop burning coal to waste water.....e340
Submerged storage at Cedar Rapids for Iowa Ry. & Lt. Co. n914
Surface rights over coal mines protected...n417
Wheelbarrow replaced by mono-rail electric hoist for ashes and coal n741
Cochrane, V. H., on special construction of road for Kansas City *1139
Coating, self-healing, for bridge steel n159

Codes
—Hartford modern building code.....1193
—To cover city building e746
—Trough closet specifications N. Y. Ind. Commission n573
Coincidence or habit e692, *704
College graduate vs. apprentice (P. J. Keeler) 1 183
Colleges not to be hindered in turning out engineers (circular letter) (J. P. Munroe) 1 327
Colombia a market for construction materials and machinery (Chamber of Commerce) n842

*, illustrated; l, letters; e, editorials; h, hints; n, news notes; a, abstracts.

Page

Colorado Fuel and Iron Co.....e643

Columns
Column tests need full analysis and discussion (A. W. A. Eden).....1475
((A. J. Himes).....1474
(((J. P. J. Williams).....1474
Do we need safer columns (A. S. C. E. report).....e242, *250
Fire and load tests show distortions.....*207
Fireproof tests are coöperative.....n399
Low working stress for square steel columns.....*250
Pittsburgh building code in the making (J. A. Ferguson).....1 729
(See also 434)
Reduction of live load for girders and columns (R. F. Fleming).....1229
Use of short, reinforced base for columns cast in advance (H. L. Richardson)....h*428

Commissions
Commission appointed to study railroad wage problems.....n232
Commission-manager form of city government does not eliminate politics (T. V. Stephens).....398
Create a competent commission for federal waterpower control.....e196
Manchester (N. H.) Commission of Public Works to be abolished.....171
New commission for N. Y. City West Side problem.....n282
N. Y. Pub. Serv. Comm. 2nd District on overhead charges.....e1070
N. Y. State Commission on relief measures for subway contractors...e1114, 1150, n1199
Pennsylvania Pub. Serv. Commission rules that water companies must pay for meters.....n1085
—Water rate case, Ohio Valley Co.....n1198
(See also 216)
Probably no waterways commission.....e340
Railway Wage Commission will receive representative of Amer. Assn. of Engineers.....334
Report of President's Mediation Committee incomplete.....e292
St. Louis City Planning Commission has zone system of sewers prepared.....368
Weakness of city commission plan shown in failure of waterworks at Harrisburg e292, 316

Committees
Amer. Ry. Eng. Assn. reports for 1917 abstracted.....547
A. S. C. E. Committee on Development resolutions.....e1209, 1210
Capital Issues Committee.....1012
Capital Issues Committee instructs applicants.....n483
Committee on Engineering Coöperation..n1019
